What is ECB?

Enrollment Credit Bonus (ECB): Any new Enrollment Kit Credits (Premier Customers and Partners) are multiplied by 2, both for your weekly (WCV) and monthly (MCV) commission cycle.

What is ECBx?

Any new Enrollment Kit Credits (Premier Customers and Partners) are multiplied by a factor for your monthly commission (MCV). For example, the Credits are multiplied by 3.

Is ECBx the same as 200% ECB?

Yes. ECBx, a term from the [Compensation Plan](#), equals the previous term of 200% ECB. ECBx is the term that applies from now on.

What does the “X factor” signify in ECBx?

The term “X factor” in the context of ECBx refers to the multiplier applied to new Enrollment Kit Credits for Premier Customers and Partners. This multiplier affects the calculation of the monthly commission cycle (MCV). For instance, if the “X factor” is set to 3, it means that the Enrollment Kit Credits are tripled when calculating the monthly commissions.

How will ECBx work?

An Ultimate Partner Kit normally gives 150 Credits. With ECB, you get 300 credits, but with ECBx, you get 450 credits. Remember to purchase the Partner Campaign Kit(s) through your Back Office to link it/them to your Partner ID number:

- “Log in” to your Back Office
- Go to “Shop”
