

Zinzino's globally recognized certificates

The superior quality of our scientifically proven and third-party tested range of products is validated by internationally recognized, global certifications and recognitions that further strengthen Zinzino's credentials as a leader in clean, test-based nutrition.

FRIEND OF THE SEA

Friend of the Sea is the leading certification standard for products and services that respect and protect the marine environment and support a balanced ocean ecosystem. A Friend of the Sea certification guarantees sustainable fishery and quality of fishery products, fishmeal and Omega-3 fish oil.

THE MARINE STEWARDSHIP COUNCIL (MSC)

The Marine Stewardship Council is an international non-profit organization that recognizes and rewards efforts to protect oceans and safeguard seafood supplies for the future. The blue MSC ecolabel means that the product is fully traceable to a wild-catch fishery which has been independently assessed and certified to the MSC's science-based standard for sustainable fishing.

COLOGNE LIST® (KÖLNER LISTE®)

Cologne List® is a European initiative for doping prevention listing food supplements that have been independently tested for selected banned substances and approved without any remarks, performed by a globally leading European scientific analytical testing laboratory.

THE INFORMED SPORT CERTIFICATION

The Informed Sport certification is a global testing and certification program for sports and nutritional supplements that ensures that the product has been cleared of any illegal substances that could result in a positive doping test.

THE VEGAN SOCIETY TRADEMARK

The Vegan Society trademark indicates that a product contains no animal ingredients or derivatives, has not been tested on animals, and fully complies with vegan standards. This trusted symbol makes it easy for consumers to choose ethical, animal-friendly products.

THE SUPERIOR TASTE AWARD

The Superior Taste Award is a prestigious recognition given by a panel of world-class chefs and sommeliers at the International Taste Institute in Brussels, Belgium, honoring exceptional products meeting the highest global standards in flavor and quality. This label indicates exceptional flavor, confirming the product as a superior choice for consumers.

HALAL-CONTROL

A product marked HALAL-control certified means it complies fully with Islamic dietary laws. The certification confirms that all ingredients, processing methods, and handling practices adhere to halal guidelines, ensuring the product is permissible for Muslims to consume or use.

KOSHER CERTIFIED

This certification means that the product has been prepared according to traditional Jewish dietary laws and inspected by a recognized certification authority..

GMP-CERTIFIED (LYSI)

A product that is “Good Manufacturing Practice” certified has been manufactured according to strict quality standards set by regulatory authorities. These standards ensure products are consistently produced and controlled to maintain purity, potency, and safety—giving you confidence in their quality.

FSSC 22000 CERTIFICATION (LYSI)

This is a globally recognized food safety certification. It ensures that a company meets strict standards for producing safe, high-quality food and dietary products, from raw ingredients to finished goods.

ISO 9001 CERTIFICATION (FAUN)

A company that is ISO 9001 certified adheres to a structured and consistent approach to quality management, customer satisfaction, and continuous improvement across all operations.

DEBIO (FAUN)

This is Norway's official certification for organic products. It guarantees that the product meets strict standards for sustainable farming, animal welfare, and environmentally friendly production.

KETO-FRIENDLY

A product labeled KETO-friendly contains low amounts of carbohydrates and sugars, moderate protein, and is typically higher in healthy fats. These nutritional attributes make it suitable for a ketogenic diet—a dietary approach aimed at promoting fat-burning, increased energy, and overall metabolic health.
