

BRN+

FOOD SUPPLEMENT WITH CHROMIUM FOR METABOLIC SUPPORT

KETO-FRIENDLY

SOY-FREE

SUGAR-FREE

CAFFEINE-FREE

PRODUCT OVERVIEW

BRN+ is a daily food supplement designed to complement your balanced diet and active lifestyle. This carefully formulated capsule blend combines chromium with a selection of plant extracts including ForsLean® Indian nettle, berberine-rich Indian barberry, reishi mushroom, gynostemma, citrus bioflavonoids, resveratrol and curcuminoids. Chromium contributes to normal macronutrient metabolism¹ and the maintenance of normal blood glucose levels², making BRN+ a convenient addition to your everyday wellness routine. Easy-to-take capsules fit seamlessly into your day – simply take before meals as part of a balanced diet and healthy lifestyle.

BRN+ combines essential micronutrients with botanical extracts in a simple capsule format. Chromium is an essential trace mineral that contributes to normal macronutrient metabolism¹ and glucose regulation². The formula also features ForsLean® Indian nettle extract, Indian barberry, reishi mushroom, gynostemma, citrus bioflavonoids, and other plant derived compounds. BRN+ is designed to complement a balanced diet and regular physical activity.

- ▶ Chromium contributes to normal macronutrient metabolism.¹
- ▶ Chromium contributes to the maintenance of normal blood glucose levels.²
- ▶ Botanical and mushroom extract blend.
- ▶ Convenient capsule format suitable for daily use.

CONTENT: 60 tablets, Net weight 32.3 g

KEY BENEFITS

Contributes to normal macronutrient metabolism¹

- ▶ BRN+ provides chromium, an essential trace mineral that contributes to normal macronutrient metabolism¹. This means it plays a role in the body's natural processes for metabolizing carbohydrates, fats and proteins from the foods you eat. Taken daily alongside balanced diet and regular physical activity, BRN+ complements your daily routine as part of a healthy lifestyle.

Contributes maintain normal blood glucose levels²

- ▶ Chromium also contributes to the maintenance of normal blood glucose levels², a factor for balanced metabolic function. By supporting normal glucose metabolism, BRN+ complements a mindful nutrition plan and active routine, throughout the day when used as part of a varied and balanced diet.

Plant-based extracts

- ▶ BRN+ combines chromium with a carefully selected blend of botanical and mushroom extracts including ForsLean® Indian nettle, Indian barberry, gynostemma and reishi mushroom. These ingredients have a long heritage in traditional wellness practices and are included to complement the overall formula. Together, they create a modern supplement designed to fit easily into daily routines focused on balanced nutrition and active living.

Botanical extracts and plant-derived compounds

- ▶ The formula also includes plant-derived compounds such as citrus bioflavonoids, resveratrol and tetrahydrocurcuminoids from turmeric (C3 Reduct®). These compounds are naturally present in many fruits and botanicals and are included as part of the product's diverse plant-based blend. Delivered in convenient capsules, BRN+ offers a simple way to incorporate a combination of micronutrients and botanical extracts into your daily wellness routine.

HEALTH CLAIMS (EU)

¹Chromium contributes to normal macronutrient metabolism.

²Chromium contributes to the maintenance of normal blood glucose levels.
