PRODUCT OVERVIEW

Metabolic support¹ supplement with chromium, probiotics and botanical extracts. SLMR is a thoughtfully formulated food supplement designed to complement a balanced lifestyle and support everyday metabolic wellness. Combining chromium with plant-based extracts and a probiotic strain, SLMR provides a convenient addition to your daily routine.

SLMR is ideal for individuals looking to complement their weight management goals with a structured daily routine. By combining botanicals, fiber, probiotics, and essential micronutrients, SLMR offers a modern approach to supporting metabolic balance¹ as part of a healthy lifestyle.

With its blend of botanicals, carob extract, and carefully selected micronutrients, SLMR fits seamlessly into a healthy diet and an active lifestyle. The formula is designed for individuals looking to support their nutritional intake while maintaining balance in their daily habits.

- ▶ Chromium contributes to the maintenance of normal blood glucose levels²
- ▶ Chromium contributes to normal macronutrient metabolism¹
- ▶ Botanical and probiotic blend
- ▶ Convenient capsule format for daily use

- ▶ Cinnamon Bark Extract (*Cinnamomum zeylanicum* Blume)
- ▶ BioPerine® Black Pepper Extract (*Piper nigrum* L.)
- ▶ *Lactobacillus gasseri* LG36™ – probiotic culture
- ▶ Chromium (chromium picolinate)
– essential trace mineral

Produced in France

KEY BENEFITS

Contributes to normal macronutrient metabolism¹

- ▶ SLMR provides chromium, which contributes to normal macronutrient metabolism¹. This means it plays a role in the body's natural processes for metabolizing carbohydrates, fats, and proteins from food.

Contributes to the maintenance of normal blood glucose levels²

- ▶ Chromium also contributes to the maintenance of normal blood glucose levels². Supporting normal glucose levels is an important part of maintaining metabolic balance as part of a varied and balanced diet.

Botanical and fiber-based formula

- ▶ SLMR features a blend of plant-derived ingredients including carob extract, bitter melon, and cinnamon bark extract. These ingredients are included as part of a botanical formulation designed to complement a balanced diet and a healthy lifestyle.

Probiotic and plant-based composition

- ▶ SLMR includes *Lactobacillus gasseri* LG36™ alongside plant-derived compounds such as BioPerine® black pepper extract. These ingredients contribute to the overall formulation and provide a convenient way to incorporate a combination of botanical and microbial components into your daily routine.

HEALTH CLAIMS (EU)

¹ Chromium contributes to normal macronutrient metabolism
² Chromium contributes to the maintenance of normal blood glucose levels
