GREATER THAN GOLD

Saffron is the world's most expensive spice, priced higher than gold. Yet, its more precious value goes beyond how it looks, smells or tastes; its most precious value is how it makes you feel.

LIVE HAPPY

Saffron is nicknamed the "sunshine spice." Not just for its distinct color, but because it can help brighten your mood and increase feelings of well-being. If you're looking for better quality downtime, improved productivity, reach for Viva+. Because there's no better feeling than feeling your best.

POSITIVE MOOD

Maintaining good health requires sufficient and diverse nutrients to achieve an optimal state, yet it is easily affected by unbalanced daily diets and fast-paced lifestyles. When nutrient intake is inadequate, it may impact our quality of life and daily performance.

The body relies on key nutrients to maintain balance, and stable physiological functions are essential for coping with everyday demands. Viva+ contains vitamin C from acerola cherry (West Indian cherry) fruit extract, marine magnesium, and iodine. These key ingredients help support the regulation of normal physiological functions.

Patented saffron to brighten your mood. Research suggests that proper nutritional supplementation plays a role in supporting a positive mood. Viva+ features patented affron® saffron stigma extract, produced through high-tech standardized processes to preserve its bioactive plant compounds. Working synergistically with vitamin C and magnesium, it helps ease everyday discomfort and supports a positive mood and optimal condition amid a busy lifestyle, helping to promote overall balance and well-being.

 Norwegian Formulation

SAFFRON

Saffron is one of the most expensive spices in the world. Saffron is grown in many parts of the world and since harvesting and processing work is done by hand, in most cases it needs to be pre-treated with heat or radiation due to the presence of microorganisms, including pathogens such as *E. coli*. These treatments reduce microbial contamination, but they also lower the amount of bioactive components, thus the quality of the product.

Spanish saffron is different! The Spanish saffron is also picked by hand but thanks to the growing and harvesting method, it does not have issues caused by microorganisms and does not need any radiation treatment. This means all bioactives are still present in the saffron, and the extracted amounts are higher.

AFFRON®, THE NEW GENERATION SAFFRON EXTRACT

Affron® is extracted from Spanish saffron stigmas using a high-tech process that enhances the profile of bioactive components. During the manufacturing process, the extract is standardized through proportion control of its key components and verified by High-Performance Liquid Chromatography (HPLC) for ingredient identification and quality confirmation, ensuring clear raw material sourcing and full traceability.

DAILY NUTRITIONAL SUPPORT | CREATING SPACE IN A BUSY LIFE

Modern life moves at a fast pace, and dietary patterns and lifestyle habits often make it difficult to maintain balance. Over time, this can easily lead to insufficient nutrient intake.

Viva+ combines multiple sources of nutrients and can serve as a daily nutritional supplement to help fill potential gaps in your diet, supporting a steady and well-balanced daily routine.

There is no need to deliberately change your lifestyle, simply make it part of your daily choices, giving yourself consistent and reassuring support.

KEY BENEFITS

- ▶ **Helps regulate physiological functions, allowing you to handle everyday challenges with ease.**
- ▶ **Supports a positive mood and emotional well-being, and helps maintain mental clarity.**
- ▶ **Supports overall health, helps with falling asleep, and promotes healthy, radiant skin.**

正向心情

維持健康需仰賴充足且多樣化的營養素方能維持理想狀態,且容易受到
日常飲食不均衡與生活節奏的影響。當營養攝取不足時,可能會影響我
們的生活品質與日常表現。

身體的運作需透過關鍵營養素的參與來維持平衡;而穩定的生理機能對
於日常應對至關重要。Viva+ 含有來自西印度櫻桃果實萃的維生素 C、
海洋鎂與碘,這些關鍵成分有助於調節生理機能。

專利番紅花,開啟好心情,研究發現營養素的補充對於維持正向作用。
Viva+ 選用專利的 affron® 番紅花花柱頭萃取物,透過高科技標準化製
程保留植物生物活性成分,能與維生素 C 及鎂協同作用,幫助您緩解日
常的不適感,在忙碌生活中維持積極正向的心情與最佳狀態,
以調整體質。

番紅花

番紅花是世界上最珍貴的香料之一,從種植、採收到加工,每一個環節都
高度仰賴人工完成,品質差異,往往就藏在這些細節之中。多數番紅花在
加工過程中,需透過額外處理程序來確保原料穩定性,但這樣的處理方
式,也可能影響原料本身的特性與品質表現。

來自西班牙的番紅花則有所不同。透過特定的種植與採收方式,在原料
處理階段即可維持穩定品質,讓植物本身的天然特性得以完整保留。
也因此,西班牙番紅花一直被視為高品質原料的代表,特別適合用於對
原料要求嚴謹的食品配方之中。

AFFRON® 番紅花花柱頭萃取物

AFFRON® 為源自西班牙番紅花花柱頭的專利萃取原料,採用標準化製
程技術,讓每一批原料都能維持穩定且一致的品質規格。

在製程中,AFFRON® 針對關鍵成分進行比例控管,並透過高效液相層析
法(HPLC)進行成分鑑定與品質確認,確保原料來源明確、品質可追溯。
