

XPRESS'OH - A COMPACT AND LIGHT SEMI-AUTOMATIC ESPRESSO MACHINE

Our new espresso machine has a modern look that fits into any kitchen or any other place where you enjoy a great coffee. It is compact and light, and available in two different colours.

The Xpress'Oh works with 16 bars pressure and has two easy programmable buttons to make a small or a large espresso to the exact size you require.

You just add your favourite coffee pod, push the button and the machine will make you a perfect espresso.

- ▶ **Perfect espresso made easy**
- ▶ **16 bars pressure**
- ▶ **Quality meets functionality**

XPRESS'OH

A COMPACT AND LIGHT SEMI-AUTOMATIC ESPRESSO MACHINE

PERFECT ESPRESSO

Our espresso machine is specifically designed to be used with the coffee pods made for Zinzino by Rombouts & Malongo or their own. These pods come in several flavors and are made either as a small or as a large espresso. You just add your favorite pod, push the button and the espresso machine will make you a great tasting espresso with the perfect crema.

16 BARS PRESSURE

Xpress'Oh works with 16 bars pressure for an optimal extraction, which gets the most out of the coffee flavors in each pod and will give you the best result in your cup. The specific outlet of the patented brewing unit of this espresso machine also generates a great crema on your coffee.

QUALITY MEETS FUNCTIONALITY

Besides making a perfect espresso with great crema, the Xpress'Oh also excels in functionality. As such it is equipped with a sensor to prevent water leakage when lifting the water tank. To top it off, this espresso machine is finished with an ergonomic handle to assure an ease of use.

CLEANING

The Xpress'Oh do not need a lime scale water filter, but it requires a cleaning process to be performed twice a year in order to remove any lime scale that might be trapped inside the system. Failure to run the cleaning process might cause the machine to stop functioning.

WARRANTY

Zinzino follows consumer laws in each country and thus offer customers the right to files complaints within legal requirements in each country it does business. For any product found faulty Zinzino will either service, repair or exchange product. Please contact our customer support team for the exact rules for your country.

- ▶ POWER: **1300 W**
- ▶ POWER USE IN OFF MODE: **0.5W/HOUR**
- ▶ RECOMMENDED CAPACITY PODS/DAY: **10**

OUR COFFEE

COFFEE SUPPLIER

Our coffee supplier is Rombouts coffee house founded in Antwerpen, Belgium, in 1896. Malongo is the Rombouts sister company in Nice, France. The company is still family-owned and is proud of its traditions and passion for coffee. Its vision is to supply the highest quality coffee by carefully selecting suppliers at small plantations - preferably Fairtrade with unique flavors. Handpicked beans are processed using the wet method, then brought on site where each sack is inspected to be slow-roasted and packaged. This is what has made them the supplier of the Belgian Royal Family and prestigious hotels and airports worldwide such as Paris, New York, Tokyo and Dubai.

FAIRTRADE

Rombouts & Malongo was the first coffee roasting house to cooperate with Fairtrade as early as 1992 and has since then been the leading roasting house of Fairtrade coffee in Europe. They had a unique commitment to Fairtrade farming right from the start and currently have personal relationship with each cooperative, which they visit and inspect each year. Normal cooperatives just buy beans. Since 2007, Rombouts & Malongo has sponsored the Malongo Foundation with aim to support projects in healthcare, to protect children and to address other social issues with local Fairtrade organizations. They annually support projects at different Fairtrade cooperatives in ecological cultivation and local transportation systems.

COFFEE

Our range of coffee pods are made by Rombouts & Malongo who are Europe's most exclusive roasting house, founded in Antwerpen, Belgium, in 1896. Malongo is its sister company in Nice, France. The company is still family-owned and is proud of its traditions and its passion for coffee. We use only the best Arabica beans in our coffee. The plantations that are high up in the mountains often have really good conditions for a better flavour and quality. We hand pick only ripe berries for the sake of the flavor. If we need to add some extra strength, we use premium grade Robusta beans. Our coffee is finally slowly roasted for 20 minutes in a low temperature around 230 C to bring out all the aromas. We offer pods that are suitable for a small espresso, 4-10 cl, and pods suitable for a large espresso, 10-14 cl. The quantity of ready coffee you get from one pod depends on how the coffee is ground.

The pods are sold in boxes of 12 pods.

AVAILABLE IN ICE PEARL WHITE OR BLACK
